Phone/Internet	845.867.0932	Mediacom
Internet	866.527.4389	Centurylink
Fiber	800.572.3940	ICN

Anticipated start date & work to be completed:

The Contractor plans to begin on 12th Ave SE on July 14, 2021. Work will begin at the water tower and along E Charles Street for water main connections. Contractor has called for utility locates along the corridor to pothole the existing private sanitary sewer services. Please do not remove any locate flags. The sanitary sewer trunk main will be cleaned and televised. The water main will be directionally drilled under the roadway pavement. Each property owner will get a new water service from the main to the new curb stop near the property line. All disturbed areas will be paved and seeded.

Traffic Control & Utility Service:

Please pay close attention to traffic control signage to know what areas will be restricted on a given day as it will change often. Local traffic will be able to access their homes during construction. Contractor will inform property owners if their driveways will be impacted by construction. Notice will be provided prior to temporary loss of sanitary and water service. It is assumed this disruption will be less than 4 hours.

Weekly Updates:

Weekly updates will be e-mailed to property owners. Weekly updates will be a summary of work completed for the week and the anticipated schedule for the next week. The updates will include traffic changes or utility coordination required for the project. If you would like to be e-mailed the weekly update, please provide your e-mail address to Jessica Fisher at jmf@foxeng.com.
